This Faculty name - has been given to high theoretical, as well ,as practical level of education in following disciplines: **Cosmetology, Medical Rescue, Nursing , Dietetics**. The Institution was accepted as to be able to teach with proper standards of education in every field (metioned above). In its education activity Nonpublic Medical College respects the demands, stated by European University Charter from Bologna Treaty 1988.

Education

The Institution educates specialist to be able to work in professions of "high social value," required for not only our region , but also for whole country and abroad. Mission of Institution is also to enriched the education proposition available at this moment. Starting in winter semester of 2013/2014 academic year the new field of education – **Electroradiology** was open. **One year postdiploma studies in Cosmetology, Dietetics and Podology are also available**. The education has been supervised by high quality academic teachers involved in research and practicing as well. The Institution supports academic teacher research and teaching activities. Students are as well supported in their scientific, cultural and administration activity.

International Cooperation

Our former international cooperation was based earlier on some scientist short visits. With LLP- Erasmus program we are able to evaluate the quality of our “graduates” when they are "exposed "to international community environment. Their practical skills connected with Prophylaxis and Health should be valuable in whole Europe, considering the Societies getting older. The Erasmus program at this moment is encouraging students to “study hard” other languages to be able to understand and adjust to other Societies. We are ready to participate in Erasmus multilateral projects, students and teacher exchange. In some cases individual student care could be considered, especially in respect to practical training. Every academic Institution will be satisfied with participation in international students and teachers exchange program.

The mission of the school is providing students the high education of professional character, of the highest educational standards, based on solid theoretical background in medical sciences, well prepared to work in the fields of dynamically changing the domestic and international work market. We teach the students in spirit of openness, tolerance and prepare them to undertake the active position in the economy improvement of the region and the country. The teaching process is organized on the basis of National Qualification Frameworks, compatible with European Qualifications Framework.

The Polish accession to European Union provided us to take part in international cooperation in the field of students exchange and improvement the methodological preparation of our teachers - inspiring the international mobility. With this aim we applied and have obtained the Extended Erasmus Charter for 2013-2014 period and its extension for 2014-2020 .

We plan the extensive exchange with our neighbor countries – Germany, Czech Republic, Slovak Republic and Ukraine but also Austria, France, Spain, England , Netherlands, Malta. We have agreement signed with Universities of some of this countries and plan to extend the cooperation much wider. Our College may offer some students practices in Poland, and will arrange practices of our students abroad. Teaching and research activity will be improved by the exchange of teachers. We plan to invite teachers from abroad Universities to learn about partners schools, theirs teaching methodology and to present our possibilities.

We want to show our College as a friendly place and we believe, that the international exchange will improve the image of our School.
All this activities are conducted by the deputy of the Rector for International Affairs – prof. dr hab. Maria Malicka-Błaszkiwicz.
